

ENVIRONMENTAL PROTECTION AND WASTE MANAGEMENT POLICY

In our business the environment protects from contamination prevents environmental the one which... negative our effects by reducing to be protected importance we give .

For this ;

- Legal regulations rapport provides environment our impact to reduce We work .
- Our waste to the source , groups And danger to their classes according to effective in this way to separate care we show .
- Dangerous substances And chemicals just need in case of And necessary much its use is both environmentally friendly and the one which... negative both effects and waste amount of will reduce we know ,
- In our business we received materials " back transformation " and " environment " friendly " tag what happened preference by doing nature to protect contributed We are found again . use opportunities to create we work ,
- Paper , napkin , toilet paper , packaging like only disposable materials necessary much using to nature more little waste to quit care we show ,
- Waste TRUE in the form of its characteristics according to separate in the areas warehouses , legal storage duration borders without exceeding licensed / authorized to companies delivery by keeping records casing We do ,
- Water, energy And all natural resources economical to use We work . This sensitivity our employees , our guests , our suppliers with we share .
- Environment management on the subject our performance measure , this data goals with marks And our performance to develop We work .
- Our employees environment about to educate And their sensitivities increase our aims .
